Abstract

This document provides you guidelines for preparing papers for Rayat Bahra International Journal of Multidisciplinary Research (RBIJMR). Please submit your manuscripts per this template. An abstract should be concise and about one hundred fifty to two hundred fifty words—and is written in an objective, impersonal style. It must include brief summary of your findings and major experimental methods. Research papers not prepared according to given guidelines will not be accepted for publication.

Keywords: 5-6 key words separated by Comma (9-point, bold)

1. Introduction

The text must be in English. Authors whose English language is not their own are certainly requested to have their manuscripts checked (or co-authored) by an English native speaker, for linguistic correctness before submission and in its final version, if changes had been made to the initial version. This document you are reading is written in the format that should be used in your paper.

This document is set in 10-point Times New Roman. Major heading in 12-point, bold. Set your page as A4, width 210, height 297 and margins as follows [3]:

- Left Margin :0.65"
- Right Margin: 0.55"
- Top Margin: 0.7"
- Bottom Margin: 0.7"

Some technical formatting software print mathematical formulas in italic type, with subscripts and superscripts in a slightly smaller font size are acceptable.

2. Headings and Footnotes

Major headings should begin at the left margin in a bold font without underline. They need to be numbered. Usual primary headings are Materials and Methods, Results, Discussion or combined as Results and Discussion, Acknowledgement and References.

2.1 Subheadings

Subheadings should be as the above heading “2.1 Subheadings”. They should start at the left-hand margin on a separate line, subheadings 11-point. The top of this paragraph illustrates a sub-subheading.

Title: The title should be centered across the top of the first page and should have a distinctive font of 16-points Century. It should be in a bold font and in lower case with initial capitals. Right below the title (separated by single line spacing) are the names of the authors. The font size for the authors is 11pt. Author affiliations shall be in 9 pt.

Keywords: From 5 to 6 keywords should follow the abstract (as a subheading: *Key words*, of the Abstract).

Illustrations or pictures: Place illustrations (figures, tables, drawings, and photographs) throughout the paper at the places where they are first discussed in the text, rather than at the end of the paper. Designate all illustrations, graphs and line drawings as figures and number them consecutively. A plate of drawings or photographs may be treated as one figure with letters for each element or as several figures with each figure numbered consecutively. All figures must have a caption placed below the figure (Figure 1). Figures should be designed properly to fit in single column (8.0 cm) or two columns (16.5 cm) width by 22.8 cm height.

Tables: All tables must be given sequential numbers (1, 2, 3, etc.) and have a caption placed above the table (Table 1). Place the illustrations/Pictures/Tables numbers and caption in 10-point font. Footnotes should be typed in singled-line spacing at the bottom of the page and column where it is cited. Footnotes should be rare.

EQUATIONS: If you are using *Word*, use either the Microsoft Equation Editor or the *MathType* add-on (<http://www.mathtype.com>) for equations in your paper (Insert | Object | Create New | Microsoft Equation or MathType Equation). “Float over text” should not be selected.

Number equations consecutively with equation numbers in parentheses flush with the right margin, as in (1). First use the equation editor to create the equation. Then select the “Equation” markup style. Press the tab key and write the equation number in parentheses.

$$E_{ji}^{(0)} = -\frac{1}{\log m} \sum_{j=1}^m [T_{ji} \log T_{ji} + (1-T_{ji}) \log (1-T_{ji})] \quad (1)$$

4. Conclusions

The better your paper looks, the better the Journal looks. Thanks for your cooperation and contribution.

Appendix

Appendixes, if needed, appear before the acknowledgment.

Acknowledgments

Insert acknowledgment, if any. Research support/laboratory support/ sponsorship/financial support from Govt./Private organization or any other acknowledgments are also placed here.

References

The brief citations included in the body of your paper correspond to the more detailed citations provided at the end of the paper in the references section. Number citations consecutively in square brackets [1]. The sentence punctuation follows the brackets [2]. Multiple references [2], [3] are each numbered with separate brackets [1]–[3]. Please note that the references at the end of this document are in the preferred referencing style. Please ensure that the provided references are complete with all the details and also cited inside the manuscript (example: page numbers, year of publication, publisher’s name etc.).

- [1] A. A. Name, and B. B. Name (Year). Book Title, Place: Press.
- [2] A. Name, and B. Name (Year). "Research Paper T Title", Journal Name, Vol. X, No. X, pp. xxx-xxx.
- [3] A. Name (Year). , "Dissertation Title", M.S.(or Ph.D.) thesis, Department, University, City, Country.
- [4] A. A. Name (Year). "Conference Research Paper Title", in Conference Name, date, Year, Vol. x, pp. xxx-xxx.

Author Profile

< Author Photo >

First Author Biographies should be limited to one paragraph consisting of the following: sequentially ordered list of degrees, sequentially ordered places of employ concluding with current employment; association with any National/International journals, Scientific presentations in conferences/workshops/symposia; Editorial board members if any, awards/recognitions in Academics/Research., Research grants, Research Paper publications details (number of papers and titles of books published); current thrust areas of research;

Second Author biography appears here. Degrees achieved followed by current employment are listed, plus any major academic achievements.

Third Author should mention designation & membership of any professional societies.
